

Mozarthaus Vienna

A centre showing the life and work of the musical genius

At the Mozarthaus Vienna visitors can explore the only Vienna apartment of Mozart's that has been preserved, where he lived from 1784 to 1787 and composed more music than anywhere else! Around this flat, a comprehensive presentation of the times in which Mozart lived and of his most important works, spread over three exhibition levels, awaits Mozart fans, young and old, from all over the world. The exhibition is focused on the great composer's Vienna years, which represent the peak of his creative achievement.

Special Exhibition

In addition to the permanent exhibition, a special exhibition also takes place in the Mozarthaus Vienna, which changes each year and is included in the price of admission. The special exhibition for 2017 (27 January 2017 until 14 January 2018) deals with the subject of "Mozart and his Viennese Networks" and particularly with the skilful "business strategy" of the musical genius: In order to make a mark for his musical future, it was important for Mozart to be able to rely on a network that functioned well. But, who gave him commissions, with whom did he play music, who supported him and who was the audience?

Concert Programme

The extensive programme of events ranges from concerts to book presentations and symposia. The concert and event room, also used for musical performances in cooperation with the famous piano manufacturer Bösendorfer, can be hired for self-organised social functions, events and celebrations. Exclusive packages, like "Museum & Concert", are offered for groups.
